

tr12

HALL LOCK

- + On/Off feature with adjustable tension that brings derailleurs stability, accuracy, chain retention and quietness
- + It can lock-out the main pivot bolt to prevent your derailleur from lifting, slapping and making noise
- + You can set it up

FINISHING TOUCHES

- + Carbon fiber cage & Upper link
- + Extra wide parallelogram pivot
- + Sealed cartridge bearings pulleys

RATCHET CLUTCH

- + Large diameter clutch surfaces for wear resistance
- + Adjustable clutch force provides for customizable ride tuning and compensation for wear
- + Quick and easy on/off switch removes all clutch force when needed for wheel changes
- + Robust pawl engagement

HANGER

- + For optimum shifting performance we recommend standard hanger type

SHIFTER

- + New linear actuation for faster shifts
- + Ball bearing equipped
- + Tool-free straight lace cable changes
- + Rider adjustable home position of lower lever with a 40-degree range

CHAIN LENGTH INDICATOR

- + Guideline printed on the front of the derailleur's knuckle
- + Marking helps ensure a quick and accurate measure of the system's required chain length

COMPATIBILITY

MAX. 50 T CASSETTES
